WEATHER CONDITIONS BAD, TRADE WINDS ARE A MONTH LATE

United States Department of Agriculture Weekly Weather Bulletin, Apr. 17.—It was very much warmer than during the preceding week, and the excesses over last week were the greatest changes from week to week that have occurred for years. On the island of Hawaii the mean temperatures were generally 3.2° to 5.3° higher than the previous week's; on Maui 3.8° to 6.2° higher; Oahu 4.4° to 6.3° higher; Kauai 5.8° to 9.2° higher, and on Molokai 3.8° to 4.4° higher.

The rainfall was light throughout the section and all stations having a record of ten or more years report less than the average for the week, excepting one in the Kau district of Hawaii.

The "trade winds" have not yet been established and the establishment is now more than a month behind its usual time.

The following table gives the weekly averages of temperature and rainfall for the principal islands and for the group:

	Temp.	Rain.
Hawaii	72.3°	0.85 inch
Mau	72.4°	0.29 inch
Oahu	74.5°	0.15 inch

scrambled on her feet again and charged across King street, dashing, head lowered, at a stationary hack, No. 264. The cow struck one of the rear wheels and snapped the axle in twain, dragging the wheel away from the hack. The cowboy urged the animal into the vacant lot makai of King and opposite Smith street, and threw it to the ground, twining his lariat round a tree and holding the animal fast. The cow was one of a number brought in on the Waiiale and she escaped, after being landed on the dock. The animal rushed up towards Aala Park, swung round into Hotel street, thence into Smith street, when she was stopped by the cowboy referred to above. Beyond smashing the hack the animal did no further damage.

END PRIVATE FISHING RIGHTS

Rice introduced a resolution in the House this morning to request the Delegate to present and advocate in the Congress the enactment of appropriate legislation to acquire from private owners of sea fisheries all their rights in such, so that such sea fisheries may be free to all citizens of the United States. It is further resolved that the Treasurer, with the advice of the Attorney-General, be instructed to prepare and forward to the Delegate a list of all such sea fisheries, the private ownership of which has been adjudicated, together with an estimate of the probable value of each.

It is mentioned in the preamble that, "by reason of lack of funds, and the paramount claims of other matters of greater public importance, no appropriation of funds has been possible by the Territory for the purpose of acquiring such private fishing rights."
